FROM THE SENIOR PRINCIPAL'S DESK

Shweta S. Shivhare
Sr. Principal

"Start by doing what's necessary; then do what's possible; and suddenly you are doing the impossible."

Welcome back to yet another exciting School year with new learning and experience as we look forward to opening new vistas in the domain of education and scaling new heights.

As we have completed the 2021-2022 school year, I am so proud of the hard work and collaboration of our students, staff and families. It's been a great year!

School is a place where you learn, prepare for life and yet grow and develop to smart individuals. On one side where academics help you to develop intellectually and non-academic events help in holistic development of students. It is our goal to help our students have a smooth transition by providing fun and exciting activities and at the same time spend time getting to know the children and forming the bond and attachment that will help them feel comfortable and at ease with their new teacher. If you notice carefully,

most of the learning tasks that students need to complete are situated in the context of learners' experiences. Our intent is to connect the learner emotionally with the learning content and relate to it as much as possible. In order to bring in a sense of social interaction, we have scheduled various activities throughout the year. Your ward may have already participated in intra-class, inter class competitions. Student leadership team is all set to take charge as champions in their area of responsibility.

As a school we constantly motivate our students to face challenges themselves and push their boundaries. Please don't hesitate to speak to us regarding any special needs or routines regarding your child.

PARENT'S TALK

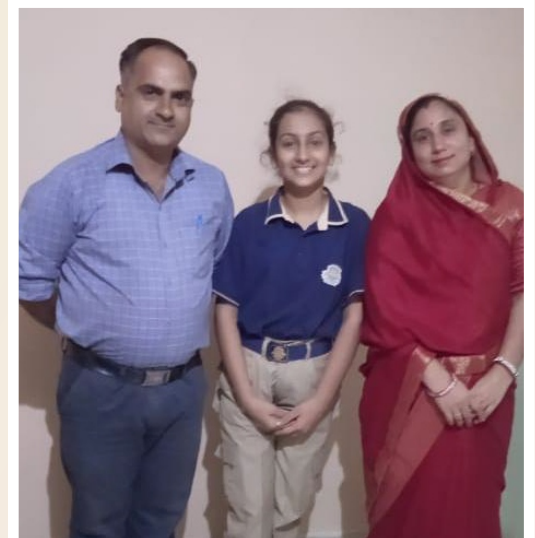

Well, I felt so glad that I got admission of our child in this school. You are providing really excellent facilities like good infrastructure, best teaching faculty and quality of education as well as transport system. This school does not solely focus on academic performance, in other words, it emphasizes on the overall development of their students. Along with the academics, extra-curricular activities are also organized at the school. This is one of the main reasons why I love SIS Kadi as it does not measure everyone on the same scale.

TEACHER'S TALK

I, Usha Sharma, I have been teaching Hindi at SIS school since the last 4 years. For the last four years, I have been kept in this school as a family member. From the principal to the trustees and the teacher staff, an unbreakable relationship has been formed. The environment of this school is excellent for the teachers as well as the students, because of the teaching quality and the quality of the teachers, my son is also a student of this school. I often hear from him that my teacher explained to me today in such a way that the whole concept was understood in one go. The rules and discipline of this school is also commendable. What I have learned in the last four years is the invaluable asset of my life and I am learning more in this wonderful environment. SIS has been an integral part of my entire professional career. SIS is the best educational institute for students and teachers.

Thanking you,

Usha Sharma....
