MONTH - OCTOBER | ISSUE - 05 | YEAR - 2022

FROM THE SENIOR PRINCIPAL'S DESK

Mrs. Shweta S Shivhare
Sr. Principal

Good, better, best. Never let it rest. 'Till your good is better and your better is best' – St. Jerome
We have crossed the Term 1 for the academic session 2022-2023 and the results were declared and shared with parents through an Open House PTM for parents to review their wards progress and areas of improvement. It is very important to understand that every child is unique and differ with other child, so a parent and teacher we never compare one with other based on their performance, instead we encourage them to compete with themselves for a progressive development till their achieve their goals...

October month started with the festive mood as we celebrated and conducted activities such as Gandhi Jayanti, National Postal Day, International Day for Disaster Reduction, Diwali Celebration, Orange and Blue day. All these celebrations and activities are incomplete without students and their parents support.

All the celebration and activities were well organised by our beloved student council members by giving speeches, role play, Bhajans.... Which shows that our students have lot of potentiality that we must utilise their talent wisely.

Buddha had said "Aaapo Deepo Bhava" – be a lamp unto yourself. He meant to say that one must live and shine in his own enlightened knowledge and not borrowed knowledge from someone or scriptures. In the same way our children are also knowing their innate talent as now they don't feel any hesitation while participating/organising/anchoring.... They have done so activities and celebrated Diwali with a pomp and participated in different competition for different grades such as Greeting Card Making, Diya Making, Lanten Making, Rangoli and Drawing etc..

FROM THE PRINCIPAL'S DESK

Happy October! October was another busy month of purposeful learning as we all celebrated "Festival of Light" month and continued our school wide theme on learning about sustainability. Together, we are stronger, and our whole school assembly was highlighted with students sharing their learning about sustainability. We have been learning about taking care of our planet, helping the animals, recycling, climate change, conserving water, caring for our community and what each of us can do to move forward in a more sustainable and respectful way. It is so special when our school comes together to teach, share and celebrate learning. October month started with a festive mood as well as Term 1 examination. Students and teachers were in full swing for the assessment, celebration, and activities.

Orange and Blue Day Celebration

The blue and orange day was celebrated by our tiny tots in the school premises.

The colour was introduced by the respective teachers as a primary colour. The colour of the sky and the ocean is blue. The blue colour symbolizes serenity, stability, inspiration, trust, loyalty, wisdom, faith, confidence and intelligence.

Tiny tots in orange radiated warmth and happiness, combining the physical energy and stimulation of red with the cheerfulness of yellow.

Age-appropriate activities were designed to promote their eye-hand coordination, enhance their listening skills, and learn the concept in the play-way method. All our kids enthusiastically participated in the Blue and Orange Day celebration and enjoyed the activity.

PARENT'S TALK

**Mr. Sanjay Patel
Dr. Neha Patel**

Hello Everyone

We, the parents of Rahini and Yakshit, studying in classes 1st and Jr.KG, are very happy to share our experience about Shanti International School.

The staff and the teachers have always been very kind and respectful, helping students with any and everything that they need, quickly and efficiently. Since the whole world is facing the crisis in each and every aspects, it is harder to keep on track, but here Shanti International School and Education India have made a great combination to keep going on track. The teachers are great with communication. We think the fact that the school is smaller with less students really contributes to efficiency and closeness of the students and the teachers. All in all this school has given students many opportunities to create and build trust with the guidance counsellors and teachers alike. The school is offering so many extra co-curricular activities, too and has allowed the students to thrive during their high school years.

We like to show our gratitude towards the school, the staff, the teachers, honourable principal, honourable management and every single person connected to the school for being there at every moment to build our children's future.

Thanking you

Regards
